

Impact

EcoEscape strengthens young people's environmental awareness while developing practical and transversal green skills. Through non-formal education, interactive workshops, and eco-themed Escape Rooms, participants are encouraged to engage with sustainability and climate action. The project promotes active citizenship, community involvement, and a lasting commitment to sustainable practices at local level.

ECO Escape

CONTEXT

The Azores face growing environmental challenges, from climate change to the protection of unique ecosystems. Young people play a key role in shaping a sustainable future, but often lack practical tools and opportunities to act locally.

What is?

EcoEscape is an educational project that combines sustainability, creativity, and play-based learning to empower young people to act for the environment in their local communities.

KEY FOCUS

- ★ Green Skills Development
- ★ Community Engagement
- ★ Climate Change Awareness
- ★ Non-Formal Educations

Objective

This project aims to empower young people in the Azores with essential green skills, promoting environmental awareness, sustainability, and climate action. Through non-formal education, interactive workshops, and eco-themed Escape Rooms, participants develop both practical and transversal competences, strengthening their active role in building a more sustainable future.
